

Tap PRO HSS | M5

Product number 1014856

Product description

The Pro tap HSS-E is a robust tap with a friction-reducing TiN coating. It is suitable for dynamic machining and the creation of through-hole threads. Made from improved HSS-E cutting material, it offers long tool life and precision. It complies with the DIN 371 standard and has a tolerance class of ISO 2 6H. The drill has three flutes and is ideal for aluminum and plastics
