

# Cover Profile 8 40-2-90, natural

**Product number** PI-1555 SZ

**Weight** 0.427kg

## Product description

The cover profile is used to fix panel elements with a thickness of 2 mm. With the clamping profile, a quick and uncomplicated exchange of the panel elements is possible. The panel elements are inserted from the front with the cover profile. These are pressed onto the profiles and clamp the panel elements in the profile grooves.  
Cut to size max. 6000 mm
