

Basic Line ergo Worktable | 750 mm | ESD 30 mm melamine resin board light grey | 1800 mm

Product number 1012625

Product description

Sturdy base frame with sheet steel cladding Powder-coated in light grey RAI 7035

- 4 spindle lifting columns 45x45
- 1x control unit
- 1x power cable 3m
- 1x cable remote control with memory function
- 2x integrated cable duct 40x40 K

For optimal positioning of materials and tools during assembly, the work table is equipped with a matching table attachment with outrigger. The height and reach of the outrigger are infinitely adjustable. The outrigger is used to attach lights and runners. The electric height adjustment allows a flexible working posture adapted to the respective user. The memory function makes the height adjustment easy to operate. The work table is supplied pre-assembled in individual segments for complete assembly.
