

# T-Slot Slider 8 80x40

**Product number** ZI-1882

**Weight** 0.077kg

## Product description

The sliding carriage guide 8 40x80 turns the profile groove 8 into a guide. of a stable sliding carriage element.

Sliding elements made of glideable plastic realise a low-wear linear linear movement, which does not need to be lubricated.

The slide body made of high-strength GD-ZN transfers the load force into the profile groove.

Attachment elements are screwed to the guide with the enclosed M6 nuts.
