

ESD system trolley for Euro containers 60 x 40 H 134 cm tiltable | 3 x tilting shelf, 1 x fixed shelf

Product number 1014838

Product description

Safe protection and flexible storage for ESD-sensitive materials

Our ESD system trolley for Euro containers measuring 60 x 40 H 134 cm offers an optimum solution for the safe transportation and storage of ESD-sensitive components.

With a sturdy aluminum profile construction and tilting shelves, this trolley ensures maximum stability and flexibility. Main features: Dimensions: 60 x 40 x 134 cm Material: Electrically conductive aluminum Load capacity: Up to 250 kg Shelves: Tilting shelves for optimum access Castors: Lockable and electrically conductive castors Advantages: Effective protection against electrostatic discharge Flexibility thanks to tilting shelves that allow easy access to stored materials High stability and load capacity for industrial applications Easy handling and optimum mobility Additional benefits for : Wide range of applications: ESD system trolleys are ideal for various industrial and technical areas. Durable construction: Robust design for use in demanding environments. Complementary accessories: A wide range of accessories such as ESD transport rollers and other accessories are available to optimize your logistics processes. Find out more about this high-quality ESD system trolley and other innovative products at maunsystem.

Product properties

Scope of delivery	without euro container
Size	System trolley for Euro containers 60x40 Height 134 cm
ESD discharging	Yes
System trolley type	System trolley inclinable
